aGent V5 Pro Kit

Full HD webcam. Up to 5MP video resolution, 5 layer German quality glass lens and Ultra-Light low light sensor

Got an Apple Mac? Got a PC? Want a webcam that works on both? Then look no further. The aGent V5 HD webcam is compatible on both Apple Mac and PC. Got a laptop and a desktop or a widescreen iMac? We have a webcam clips for them all. In fact the aGent includes a desktop stand, a notebook clip and an LCD screen clip for PC flatscreens or the iMac screens.

So what's in the box? [Click here](#)

Macworld Australia: "A sleek sophisticated webcam, is the perfect choice for the design savvy Mac user..."

PC World Australia: "Excellent picture and video quality, extensive list of special features..."

Good Gear Guide: "A stylish HD webcam with great video and excellent picture quality..."

Sturdy as Steel

A polished steel encasing or brushed steel to match you Macbook Pro or iMac? You choose! These beautifully finished casings come complete with microfibre lens protectors/cloths. And only weighing in at under 100grams the V5 is light, compact and great for travel.

FULL HD quality sensor

The aGent V5 can capture Full HD quality video at 1920 x 1080 and up to 8-megapixel stillshot images. That's more than quadruple the resolution of our competitors 640 x 480 megapixel cams! [Click here](#) to see just how big the video image can get!

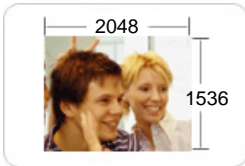

Apple MAC and PC compatible!

Best of all aGent V5 HD is both Apple Mac and PC compatible! For full details click here

Ultralight Low Light compensation
Designed to shine in low light conditions the aGent V5 outperforms other webcams in low light. Automatically adjusts to provide the best image in low light conditions.

Supersize your image
The supersized image can run at Full HD 1920 x 1080, or all the way up to 2560 x 2048 with software enhancement. Image resolution can reach as high as 8 megapixels. Now you can finally have a large video image at a fantastic quality!

German 5 Layer Glass Lens
No 2 layer cheap plastic lenses here. Our 5 layer supersensor glass lens picks up all the details.

Auto Exposure
Look your best wherever you are. The aGent gets the exposure and brightness right everytime!

Vivid CCD Technology
Get sharper brighter and deeper colours from our vivid CCD technology 5 layers glass lens.

Notebook Clip
Take the aGent where ever you want. Clip it on your notebook or flat screen or use the desktop stand. You've got 3 included clips/stands to choose from!

iMac clip and LCD Screen Clip
The Agent V5 fits perfectly on your iMac LCD screen or your PC LCD screen. In fact it fits over any screen within 7cm (2, 3/4") thick

Bonus microfiber white travel case
Fits the webcam, notebook clip and accessories all in a stylish microfiber travel bag with bonus microfiber lens cleaner/protector

Bonus Cable Turtle

Neatly wrap excess cable up in the bonus cable turtle. Great when using the aGent V5 HD webcam on your laptop! With a turn of the hand the extra cabling is neatly removed from sight. Wind excess cabling around the open cable turtle, close it and all flex is out of sight! The opening in the centre of the cable turtle can be used to attach this cable winder to different places.

Autosmart Facetracking

Be the centre of attention all the time! The software facetracking drivers follow you wherever you go so you are always in the picture. Just one click turns it on and off.*

Digital Zoom

Compliant with digital zoom software to get up close and personal.*

Inbuilt Microphone

Have the freedom to talk without a headset through the enhanced quality digital inbuilt microphone. We've got all bases covered!

Tripod Mount

The aGent V5 webcam can even be mounted on a regular tripod with no extra attachments or clips needed. It just screws right in!

Super long USB Cord

Is your computer screen far away from your screen? The aGent V5 HD is designed to suit everyone from the laptop user to the desktop user with a long 1.75metre (5'8") cord.

Attach your professional lenses!

With our optional lens adaptor you can attach any normal photographic 37mm lens. The adaptor is compatible with both the aGent webcam range and the discontinued Apple iSight. Click here for more details of the aGent/iSight lens adaptor unit.

Star, Direct and Produce your own videos!*

Record, edit, and touch up your videos. Make your own home movies! Our complimentary video suite lets you do it all and for no extra cost!

Brushed Steel Finish

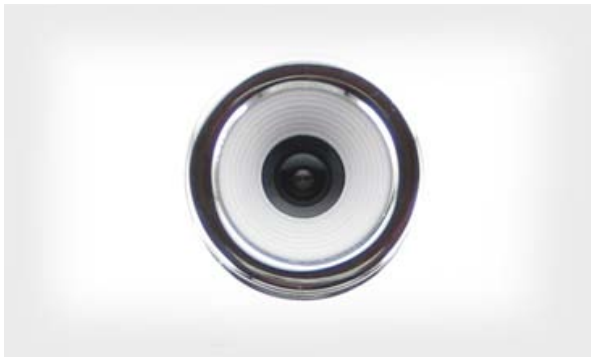

Polished Steel Finish

The iMac/LCD clip quickly and simply attaches to the top of your screen and is fully adjustable to different screen sizes so you don't have to worry if it fits. With a full 360 degree horizontal swivel head and a 60 degree vertical tilt the V5 will shoot in any direction you choose.

The macbook/laptop clip universally fits to any laptop. Includes a padded foam clamp that ensures no scratches and adjustable head that tilts 360 degrees vertically and 60 degrees horizontally. Just slip it into the included microfibre pouch and take it travelling.

The new aGent V5 HD can give you up to a huge 8MP resolution. That's 2048 x 1536* (which is bigger than a 24" screen!). Includes a 5 layer Glass lens and an Ultra Low Light Compensation Supersensor designed to provide the best image in low light conditions.

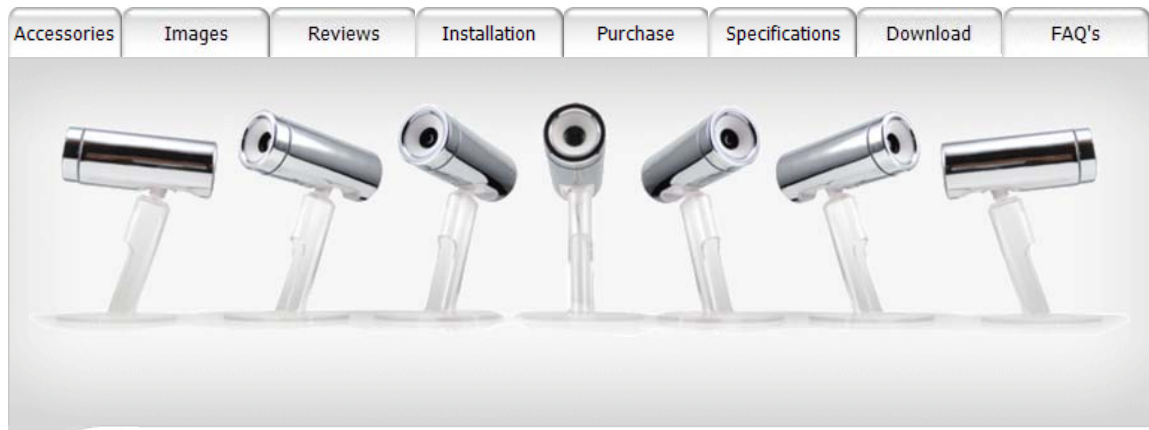

The aGent V5 is the only webcam on the market to give you an optional lens adaptor. Allowing you to attach professional photography lenses! For optimum placement and positioning simply screw into the optional mini tripod.

*The aGent V5 is a true HD 2MP webcam that can extend to 8MP still shots via software interpolation.
